I. Berrys Creek taken from the southwest of Route 3 Bridge looking northeast.
Note: rail line, bridge, and lagoons 3 & 4 on Sports Complex in foreground.
Berrys Creek Tidal Marsh in upper right corner. Also Rt. 3 Bridge is downstream limit of dredging.

II. Berrys Creek taken over Lagoon 4 of the Sports Complex looking north-east. Note: Berry Creek Tidal Marsh (Walden Swamp) on the right of the Creek.

III. Berrys Creek taken from the south of Route 20 Bridge (Paterson Plank Road) looking north. Note: Eight Day Swamp just beyond the Bridge.

IV. Berrys Creek taken from the south just beyond Route 20 Bridge looking north. Note: Eight Day Swamp on either side of the Creek.

V. Berrys Creek taken from the south beyond Rt. 20 looking north toward tidal marshes in upper Berrys Creek basin.

VI. Berrys Creek taken from the southeast looking northwest toward upper Berrys Creek tidal marshes and Ventron landfill: Note tide gate on right side of photo furthest visible point upstream.

VII. Ventron Landfill (Proposed Upland disposal area) looking from the south, looking north. Note: landfill is generally between Berrys Creek and the beige colored warehouse building on the upper left of photo.

VIII. Ventron landfill (proposed upland disposal area). From the east looking west.

IX. Ventron landfill from the northeast looking southwest. Note: railroad bridge over Berrys Creek is upper limit of dredging - rail line is northern boundary of Ventron landfill.

X. Berrys Creek from the north looking south toward tidal marshes of upper Berrys Creek. Note: Tide gate on the lower portion of photo.

XI. Ventron Landfill and tidal marshes looking north to south. Note: Upper Berrys Creek in the foreground.
